Cyber Safety

- **CyberSmart!**
Provides the essential "owner's manual" to guide K-12 educators down a meaningful pathway to information fluency.

<http://www.becybersmart.org>
- **NetSmartz Workshop**
An interactive, educational safety resource from the National Center for Missing & Exploited Children (NCMEC) and Boys & Girls Clubs of America (BGCA) for children, parents, educators, and law enforcement.

<http://www.netsmartz.org>
- **GetNetWise**
The Internet is an increasingly important place to work, play and learn for both adults and children. At the same time, we are concerned about the risks we face online.

<http://www.getnetwise.org>
- **Play It Cyber Safe**
One of the key initiatives of this project is to develop educational tools designed to reach school-age children.

<http://www.playitcybersafe.com>
- **Kidsmart**
Because many children are using the internet at home for homework, socialising, and playing games, it is vital that safe internet use at school is mirrored by safe internet use at home.

<http://www.kidsmart.org.uk>
- **Stay Safe Online: Educators**
Protecting computers you might use in a classroom setting plays a crucial role in protecting our nation's Internet infrastructure.

<http://www.staysafeonline.org/basics/educators.html>
- **STOP cyberbullying**
Features information and resources on what cyberbullying is, how it works, and how to understand and deal with cyberbullies.
